

Youth of New Zealand to Prime Minister John Key:
Don't drop the nuclear disarmament ball!

Ban All Nukes Generation (BANG) Aotearoa

In the 1980s New Zealand led the world as the courageous country that banned the bomb! Now is the time to start work on a global ban and eliminate the remaining 20,000 nuclear weapons before they eliminate us.

Virtually every government in the world will gather in New York next month to discuss nuclear disarmament plans. U.S. President Obama has announced a vision for a nuclear-weapons-free world. United Nations Secretary-General Ban Ki-moon has put forward a plan to make it happen – a draft nuclear abolition treaty.

They need support from countries like New Zealand.

Join us to ban nuclear arms in OUR generation!

Dear Mr Key,

Please don't drop the nuclear disarmament ball!
At the nuclear nonproliferation and disarmament meeting in May 2010, we urge you to support UN Secretary-General Ban Ki-moon's proposal to start work on a global nuclear abolition treaty. Nuclear weapons must be abolished in our generation – or they could destroy us.
